

OC BUS COVID-19 POLICY - 2021-2022

In order to ensure the safety and comfort of our members and guests when riding OC buses as we ease our way out of pandemic restrictions, the OC Bus Committee has instituted the following policy for day buses. Please cooperate by following these requirements that may be necessary until we return to more normal conditions.

- All NYS Department of Health and CDC guidelines will be followed.
- In order to board the bus, a person must show a COVID vaccination card OR a NYS wallet verification AND, as is currently required, a membership card/applicant card or photo copy of cards.
- As is already the policy, bus seats must be reserved and prepaid in advance. Bus reservations and lift tickets must be prepaid on PayPal.
- Advance purchase of lift tickets will be required.
- No cash will be accepted on the bus.
- If you would like an empty seat next to you, you may buy an extra seat for \$12.
- Masks are required at all times while on the bus.
- Proof of vaccination is required on each bus ride.
- Seating on the bus is assigned and passengers must remain in their seats during transport between destinations.

- All members and guests must sign a COVID-19 waiver. Please print and sign at home and have it ready on the bus. This is necessary for contact tracing.
- If you are sick, stay home because you will not be permitted to board the bus.
- Cancellations follow the published policy already in place.
- Failure to comply with these guidelines will result in consequences that may include loss of privileges to ride the bus.
- This policy will be updated as necessary and as conditions change.

While these requirements may seem restrictive, they are necessary to protect the health, comfort and safety of everyone and we ask for your cooperation in complying with these regulations.

Revised September 2021
